Justice  
Organisational policy  
Non-violence

**#5ZCulture** is an initiative of the ORP International Foundation (**FiORP**) in its quest to promote the development of a corporate culture based on the Vision Zer concept; that is, on the belief that all accidents and injuries at work can be prevented if the safety, health and well-being of individuals is the highest corporate priority.

**ORP International Foundation** is an adhering partner of the global Vision Zer campaign of the International Social Security Association (ISSA).

**#5ZCulture** encompasses all those companies that are committed to a preventive, sustainable and responsible culture. These companies agree to activate and promote collaborative actions that value good practices in the integral development of the company and the individual. This model for promoting sustainable businesses is aligned with the 17 Sustainable Development Goals (SDGs) proposed for the 2030 agenda.
